

Skylark Fire Safe Council (Skylark FSC)

Our Mission

The Skylark Fire Safe Council is a volunteer-led 501(c)(3) nonprofit organization dedicated to reducing wildfire risk and improving emergency preparedness throughout the Skylark community.

Through education, outreach, and neighborhood action, Skylark FSC helps residents reduce fire hazards, prepare for emergencies, and work together toward a safer, more resilient community.

Give Today, Protect Tomorrow

Wildfire can change a neighborhood in minutes. Skylark FSC helps protect the homes, families, and places that make Skylark our community.

Skylark FSC is a 501(c)(3) nonprofit run by volunteer board and committee members. **Tax-deductible** donations are essential to keep FSC operating and turn community care into wildfire education, outreach, and preparedness.

As insurance costs become a growing burden, stronger wildfire protection may help improve Skylark's insurance profile. Your tax-deductible gift helps fund:

- Wildfire risk reduction
- Resident education and outreach
- Emergency preparedness and evacuations

\$400 Zone Zero Grant Now Available

The Skylark Fire Safe Council is excited to announce a new grant program for homeowners within the Skylark community. Thanks to sponsorship from San Diego Regional Fire Foundation, five (5) homeowners may receive up to \$400 each to help replace combustible fencing or gates located within the Zone Zero area immediately adjacent to their homes.

IMPORTANT DATES

Apply by: October 18, 2026 **Awards Announcement:** November 1, 2026

What the Program Offers

1. Up to **five Skylark homeowners** may receive reimbursement of up to **\$400 each**.
2. Funding helps offset the cost of replacing **combustible fencing or gates** located within **Zone Zero**.
3. Projects are intended to support wildfire resilience by reducing combustible materials immediately adjacent to homes.
4. Priority consideration may be given to seniors, veterans, residents with disabilities, homeowners with demonstrated financial need, and properties facing elevated wildfire exposure, such as along a canyon rim.

How It Works

1. Submit an application by October 18, 2026:
<https://www.skylarkfsc.org/programs#zone-0-grant>
2. If selected, complete the approved fencing or gate replacement project.
3. Submit receipts and before-and-after photographs.
4. Receive reimbursement of up to \$400 after review and approval.
5. Award homeowners will be announced on Award Announcement date.

Why Zone Zero Matters

Zone Zero refers to the first five feet surrounding a structure. Reducing combustible materials in this area can lower the chance that wind-driven embers will ignite materials directly next to a home.

Working Together for a Safer Skylark

Wildfire resilience is a shared responsibility. This program helps residents take practical action, one home at a time, while strengthening community preparedness through education, prevention, and local partnerships.
